----------------	--

SHELF-LIFE	9 Months
-------------------	----------

STORAGE CONDITIONS	store away from heat and humidity
---------------------------	-----------------------------------

STORAGE ADVISE	temperature: < 25 C once opened: max 1 day, if not stored after opening in a closed container (otherwise product quality degrades)
-----------------------	---

MICRO-BIOLOGICAL	total plate count: yeast/ moulds: entrobacteriaceae: listeria monocytogenes: staphylococcus aureus: salmonella:	<5000 cfu/g <400 cfu/g <10 cfu/g <100 cfu/g <10 cfu/g Not detected in 25 g
-------------------------	--	---

QUALITY GUARANTEE

QUALITY GUARANTEE	The quality guarantee is established in the quality system of the production plant, where - according to the BRC, IFS - the subjoined subjects are controlled: - the manufacturing and packing is established in working instructions and inspections on fixed standards - there are fixed procedures for: * correcting measures; * treatment of products with shortcomings; * settlements of complaints. - hygiene level by means of cleaning schemes and schemes for vermin abatement; - periodical audits of the quality system by the Central quality Department and external authorities; - HACCP forms a part of the quality system and is as such established in
--------------------------	---

HYGIENE	By means of cleaning schemes and schemes for vermin abatement the hygiene level is monitored. Also periodical inspections take place by both internal and external experts.

PRODUCT	71279 Double Oat crisps chocolate 125_150_300g
----------------	--

QUALITY GUARANTEE (continuation)

ENVIRONMENT	Concerning the environment there is an Environmental Policy Plan in which subjects like control of waste flows are under discussion.
QUALITY CONTROL	The quality inspections are established in the quality system, amongst other things this implies that the input-, manufacturing- and final controls are established in the quality system. Herewith also the traceability of the product is guaranteed.
MICRO BIOLOGICAL RESEARCH	In view of the nature of the products there is no microbiological research during the manufacturing process. At least once a year the finished product is microbiological tested.
ORGANOLEPTIC EXAMINATION	By way of an internal selected and trained taste panel our products are regularly tested on taste in connection with the tenability of the products. At least on every shift there are two taste tests on the finished products.
HACCP	As instructed by the European Food and Drugs Act, HACCP as a control system constitutes part of the total quality control system.
LEGISLATION	Our products fulfill the EC legislation concerning heavy metals, mycotoxins, contaminants.
